FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

**RE: Application of GTE Corporation and Bell Atlantic Corporation For Consent to
Transfer Control of Certain Licenses and Authorizations, CC Docket No. 98-184**

Dear Ms. Salas:

Enclosed for filing are errata to the revised conditions submitted by Bell Atlantic and GTE on April 14.

The changes made are as follows:

1. On page 6 (¶ 3(d)(1)), a footnote is added to clarify that the parties are not proposing to preempt Commission rules governing the treatment of equipment as CPE.
2. On page 39 (¶ 30), a typographical error is corrected.
3. On pages 43 and 46 (¶¶ 35(a) and 37(c)), a typographical error is corrected to conform the language to the proposal as described to the Commission's staff.

Today's filing incorporates the April 14 revisions, as well as, the errata filed on April 17 and April 28.

For convenience, both clean and black-lined versions of the April 14 filing that incorporate these changes are attached.

Sincerely,

Enclosures

cc: Mr. R. Atkinson
Ms. M. Carey
Mr. M. Jacobs
Ms. J. Mikes

Promotions Apply**

ATTACHMENT F: Alternative Dispute Mediation

ATTACHMENT G: Enhanced Lifeline Annual Promotional Budgets by State

CONDITIONS

As a condition of exercising the grant authorized herein, Bell Atlantic and GTE shall comply with the following enumerated Conditions. Unless otherwise specified herein, the Conditions described herein shall become effective 10 business days after the Merger Closing Date. The Conditions described herein shall be null and void if Bell Atlantic and GTE do not merge and there is no Merger Closing Date.

It is not the intent of these Conditions to restrict, supersede, or otherwise alter state or local jurisdiction under the Communications Act of 1934, as amended, or over the matters addressed in these Conditions, or to limit state authority to adopt rules, regulations, performance monitoring programs, or other policies that are not inconsistent with these Conditions. Nor do the Conditions reflect or constitute any determination or standard regarding Bell Atlantic/GTE's compliance or non-compliance with 47 U.S.C. §§ 251, 252, 271, or 272 or limit in any way the legal rights of Bell Atlantic/GTE with respect thereto.

For the purposes of these Conditions, the term "Merger Closing Date" means the day on which, pursuant to their Merger Agreement, Bell Atlantic and GTE cause a Certificate of Merger to be executed, acknowledged, and filed with the Secretary of State of New York as provided in New York Corporation Law, Section 907. The term "prior to the Merger Closing Date" means prior to the time that Bell Atlantic and GTE cause a Certificate of Merger to be executed, acknowledged, and filed with the Secretary of State of New York as provided in New York Corporation Law, Section 907.

For purposes of these Conditions, the term "Bell Atlantic/GTE" shall mean Bell Atlantic-Delaware, Inc., Bell Atlantic-Washington, D.C., Inc., Bell Atlantic-Maryland, Inc., Bell Atlantic-New Jersey, Inc., Bell Atlantic-Pennsylvania, Inc., Bell Atlantic-Virginia, Inc., Bell Atlantic-West Virginia, Inc., New York Telephone Company, New England Telephone and Telegraph Company, GTE California Incorporated, GTE Florida Incorporated, GTE Hawaiian Telephone Company Incorporated, The Micronesian Telecommunications Corporation,¹ GTE Midwest Incorporated, GTE North Incorporated, GTE Northwest Incorporated, GTE South Incorporated, GTE Southwest Incorporated, Contel of Minnesota, Inc., GTE West Coast Incorporated, and Contel of the South, Inc.; and any successor or assign of such company that provides wireline telephone exchange service and that is an affiliate of Bell Atlantic/GTE.

For purposes of these Conditions, the term "Bell Atlantic/GTE Service Area" shall mean the combined service areas of Bell Atlantic-Delaware, Inc., Bell Atlantic-Washington, D.C., Inc., Bell Atlantic-Maryland, Inc., Bell Atlantic-New Jersey, Inc., Bell Atlantic-Pennsylvania, Inc., Bell Atlantic-Virginia, Inc., Bell Atlantic-West Virginia, Inc., New York Telephone Company,

¹ Because of the insular nature of the Commonwealth of the Northern Marianas Islands (CNMI), only the following Conditions shall apply in the CNMI: Section IV (Non-discriminatory Rollout of xDSL Services); Section XIV (Alternative Dispute Resolution through Mediation); Section XVII (InterLATA Services Pricing); Section XVIII (Enhanced Lifeline Plans); Section XIX (Additional Service Quality Reporting); Section XXI (Compliance Program); Section XXII (Independent Auditor); Section XXIII (Enforcement); Section XXIV (Sunset); and Section XXV (Effect of Conditions).

New England Telephone and Telegraph Company, GTE California Incorporated, GTE Florida Incorporated, GTE Hawaiian Telephone Company Incorporated, The Micronesian Telecommunications Corporation, GTE Midwest Incorporated, GTE North Incorporated, GTE Northwest Incorporated, GTE South Incorporated, GTE Southwest Incorporated, Contel of Minnesota, Inc., GTE West Coast Incorporated, and Contel of the South, Inc. where those companies operated as incumbent local exchange carriers ("incumbent LECs") as of January 27, 2000.²

For purposes of these Conditions, the term "Bell Atlantic Service Area" shall mean the service areas of Bell Atlantic-Delaware, Inc., Bell Atlantic-Washington, D.C., Inc., Bell Atlantic-Maryland, Inc., Bell Atlantic-New Jersey, Inc., Bell Atlantic-Pennsylvania, Inc., Bell Atlantic-Virginia, Inc., Bell Atlantic-West Virginia, Inc., New York Telephone Company, New England Telephone and Telegraph Company where those companies operated as incumbent local exchange carriers ("incumbent LECs") as of January 27, 2000. For purposes of these Conditions, the term "GTE Service Area" shall mean the service areas of GTE California Incorporated, GTE Florida Incorporated, GTE Hawaiian Telephone Company Incorporated, The Micronesian Telecommunications Corporation, GTE Midwest Incorporated, GTE North Incorporated, GTE Northwest Incorporated, GTE South Incorporated, GTE Southwest Incorporated, Contel of Minnesota, Inc., GTE West Coast Incorporated, and Contel of the South, Inc. where those companies operated as incumbent local exchange carriers ("incumbent LECs") as of January 27, 2000.

For purposes of these Conditions, the term "Bell Atlantic States" shall mean Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia. The term "GTE States" shall mean Alabama, California, the Commonwealth of the Northern Marianas Islands, Florida, Hawaii, Idaho, Illinois, Indiana, Kentucky, Michigan, Missouri, Nevada, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Texas, Virginia, Washington, and Wisconsin.³ The term "Bell Atlantic/GTE States" shall mean the Bell Atlantic States and GTE States as defined above.

For purposes of these Conditions, the term "affiliate" shall have the same meaning as in 47 U.S.C. § 153(1).

For purposes of these Conditions, the term "telecommunications carrier" shall have the same meaning as in 47 U.S.C. § 153(44).

² The terms Bell Atlantic States and Service Area and GTE States and Service Area include only those states and service areas where Bell Atlantic/GTE will have incumbent local telephone operations after the Merger Closing Date and after execution of planned sales of local exchange properties.

³ GTE States includes only those states where GTE will have incumbent local telephone operations after the Merger Closing Date and after execution of its planned sales of local exchange properties.

PROMOTING EQUITABLE AND EFFICIENT ADVANCED SERVICES DEPLOYMENT

I. Separate Affiliate for Advanced Services

1. Bell Atlantic/GTE shall provide all Advanced Services in the Bell Atlantic/GTE Service Area through one or more affiliates that are structurally separate from the Bell Atlantic/GTE incumbent LECs in accordance with the provisions of this Section ~~(or as set forth in 47 U.S.C. § 272)~~ and the schedule set forth below. As described below, Bell Atlantic and GTE shall establish separate Advanced Services affiliates prior to the Merger Closing Date. Upon receiving state approval of any necessary interconnection agreements and obtaining any necessary state authority or certification that does not ~~materially change the Conditions~~ subject the Advanced Services affiliate to regulation substantially the same specified herein, as that to which the incumbent LEC is subject, Bell Atlantic/GTE shall transition the provisioning of Advanced Services to one or more separate Advanced Services affiliates. Nothing in this Section~~4~~ is intended to prohibit Bell Atlantic/GTE's separate Advanced Services affiliate(s) from providing services that are not Advanced Services in accordance with any applicable federal or state laws or regulations.

2. Advanced Services. For purposes of these Conditions, the term "Advanced Services" means intrastate or interstate wireline telecommunications services, such as ADSL, IDSL, xDSL, Frame Relay, and ~~ATM~~ asynchronous transfer mode ("ATM") that rely on packetized technology and have the capability of supporting transmissions speeds of at least 56 kilobits per second in both directions. This definition of Advanced Services does not include (1) data services that are not primarily based on packetized technology, such as ISDN, (2) x.25-based and x.75-based packet technologies, or (3) circuit switched services (such as circuit switched voice grade service) regardless of the technology, protocols or speeds used for the transmission of such services. Notwithstanding the other provisions of this Section, Bell Atlantic/GTE retains the right to invest in any technology or asset as long as it is not used to provide Advanced Services.

3. Section 272 Requirements for the Separate Advanced Services Affiliates. Subject to the transitional mechanisms discussed below, the separate Advanced Services affiliate(s) required by this Section I shall operate in accordance with the structural, transactional, and non-discrimination requirements that would apply to a separate affiliate's relationships with a Bell Operating Company ("BOC") under 47 U.S.C. § 272(b), (c), (e), and (g), as interpreted by the Federal Communications Commission (the "Commission") as of January 27, 2000, except to the extent those provisions are inconsistent with the provisions of this Paragraph, in which case the provisions of this Paragraph shall apply. Except as provided in Subparagraph 3i below, Bell Atlantic/GTE shall comply with the Commission's accounting safeguards pursuant to 47 U.S.C. § 272 for all transactions (including chaining transactions)⁴ between an incumbent LEC and a separate Advanced Services affiliate and shall continue to do so regardless of, and consistent

⁴ The term "chaining transactions" refers to transactions between the incumbent LEC and separate affiliate through other Bell Atlantic/GTE entities.

with, the specific accounting method Bell Atlantic/GTE uses. If the separate Advanced Services affiliate does not deviate (other than in an inadvertent or incidental manner) from the requirements of 47 U.S.C. § 272(b), (c), (e), and (g) except as described in this Paragraph and Subparagraphs below, such separate affiliate(s) shall not be deemed a successor or assign of a BOC or incumbent LEC for purposes of applying 47 U.S.C. §§ 153(4) or 251(h). Moreover, if Advanced Services assets⁵ or employees are transferred, assigned, or sold from a Bell Atlantic/GTE incumbent LEC to the separate Advanced Services affiliate consistent with these Conditions, the incumbent LEC's obligations under 47 U.S.C. §§ 251, 252, or 272 shall not be assigned or transferred to the separate Advanced Services affiliate.

a. Any Bell Atlantic/GTE separate Advanced Services affiliate and any Bell Atlantic/GTE incumbent LEC may joint market their services with the services of the other, and provide related customer care on behalf of the other, without being subject to any non-discrimination requirement under these Conditions ~~and without the Advanced Services Affiliate being deemed a successor or assign of a BOC or incumbent LEC for purposes of 47 U.S.C. §§ 153(4) or 251(h).~~ Permitted joint marketing by the incumbent LEC that may be conducted on an exclusive basis would include the sale of Advanced Services provided by the Advanced Services affiliate and the transfer of the customer's Advanced Services order or customer identified by the incumbent LEC through inbound or outbound marketing to the affiliate for completion in accordance with Subparagraph 4b(5). When performing these joint marketing activities later than 180 days after the Merger Closing Date, the employees of the incumbent LEC may only access the incumbent LEC's loop information through the same interfaces, Operations Support Systems ("OSS"), processes, and procedures as are made available to unaffiliated telecommunications carriers. Permitted joint marketing by the Advanced Services affiliate would include sales and completing the sales function, up to and including the taking of an order, for Advanced Services and local services by the affiliate (using the same interfaces and processes used by unaffiliated telecommunications carriers as required by these Conditions) and the transfer of customer orders or calls identified by the affiliate to the Bell Atlantic/GTE incumbent LEC for provisioning of the customer's local service order. Permitted joint marketing by either the incumbent LEC or the separate Advanced Services affiliate would include customer contacts up to and including the completion of the order taking process, including responding to customer inquiries, sales, and order-taking. For purposes of these Conditions, "customer care" means the following functions performed after the sale: on-going customer notification of service order progress, response to customer inquiries regarding the status of an order, changes to customer information, and receipt of customer complaints (other than receipt and isolation of trouble reports, such as reports of service outages or service impairment, which shall be processed in accordance with Subparagraph 4(j)).

b. The Bell Atlantic/GTE incumbent LEC may provide billing and collection services to the separate Advanced Services affiliate on a non-discriminatory basis. Permitted billing and collection services include payment arrangements, account adjustment, responding to account balance inquiries, account closure, responses to legal action affecting or involving the

⁵ The term "assets" is defined as equipment, software, customer accounts, initial capital contribution, and real estate.

customer, and receipt and resolution of customer billing and collection complaints.⁶ In the event that the Bell Atlantic/GTE ILEC provides billing and collection services to the separate Advanced Services affiliate within a state under this Subparagraph, it shall provide the same billing and collection services to unaffiliated providers of Advanced Services in that state on nondiscriminatory rates, terms, and conditions, including start-up costs and timeframes. Transactions between the incumbent LEC and a separate Advanced Services affiliate that are permitted by this Subparagraph shall be made pursuant to a written agreement between the incumbent LEC and the affiliate.

c. Any Bell Atlantic/GTE incumbent LEC may provide the operations, installation, and maintenance (“OI&M”) services permitted under Paragraph 4 to any separate Advanced Services affiliate on a non-discriminatory basis pursuant to a tariff, written affiliate agreement, or approved interconnection agreement, provided that the same services made available to the separate affiliate are made available to unaffiliated providers of Advanced Services in that state on a non-discriminatory basis consistent with the requirements of 47 U.S.C. § 272(c) and the Commission’s implementing rules as in effect on January 27, 2000, where not inconsistent with the provisions of this Section. Because such OI&M services are not UNEs and, therefore, are not subject to forward-looking pricing methodologies, they will be priced and made available on a non-discriminatory basis according to the Commission’s affiliate transaction rules. The following additional provisions shall apply to the incumbent LEC’s provision of OI&M services:

(1) With respect to transactions for OI&M services, Bell Atlantic/GTE shall comply with the Commission’s Section 272 accounting safeguards and will continue to do so regardless of, and consistent with, the specific accounting method Bell Atlantic/GTE uses.

(2) Processes, systems, and procedures made available by the incumbent LEC for use by the separate Advanced Services affiliate to obtain OI&M services from the Bell Atlantic/GTE incumbent LEC under this Subparagraph shall be available for use by unaffiliated providers of Advanced Services in that state on non-discriminatory rates, terms, and conditions.

(3) In order to provide for an orderly and efficient transfer of personnel and systems to the separate Advanced Services affiliate, for a period of not more than 180 days after the Merger Closing Date, the incumbent LEC may provide, under a written agreement, network planning, engineering, design, and assignment services for Advanced Services Equipment as defined in Subparagraph 3d (including the creation and maintenance of customer records), including the use of systems and databases associated with these services, on an exclusive basis to the separate Advanced Services affiliate. After 180 days, the separate affiliate shall not obtain such services from any Bell Atlantic/GTE incumbent LEC.

d. The incumbent LEC and separate Advanced Services affiliate(s) may

⁶ Billing and collection services will be offered on a sufficiently disaggregated basis so that an unaffiliated telecommunications carrier may select only the particular services it requires.

separately own facilities or network equipment used specifically to provide Advanced Services ("Advanced Services Equipment"), provided that the separate Advanced Services affiliate ~~or any affiliate established pursuant to 47 U.S.C. § 272~~ shall own (or lease from an entity other than a Bell Atlantic/GTE incumbent LEC) and operate all new Advanced Services Equipment (as defined below) used to provide Advanced Services (including equipment used to expand the capability or capacity of existing Advanced Services Equipment) put into service by Bell Atlantic/GTE later than 30 days after the Merger Closing Date.

~~Date. Repair~~(1) Repair and/or replacement of Advanced Services Equipment owned by the incumbent LEC shall not be considered to be new Advanced Services Equipment put into service. For purposes of this Section I, Advanced Services Equipment is: (1) DSLAMs or functionally equivalent equipment; (2) spectrum splitters that are used solely in the provision of Advanced Services; (3) packet switches and multiplexers such as ATMs and Frame Relay engines used to provide Advanced Services; (4) modems used in the provision of packetized data; and (5) DACS frames used only in the provision of Advanced Services.⁷ Spectrum splitters (or the equivalent functionality) used to separate the voice grade channel from the Advanced Services channel ~~may~~shall not be considered Advanced Services Equipment ~~at the option of Bell Atlantic/GTE~~; any such splitters installed after the Merger Closing Date that are located at the customer premises shall be considered network terminating equipment.⁸ Also, Bell Atlantic/GTE retains the option of deploying Advanced Services equipment at Remote Terminals and deploying related equipment in central offices through the incumbent LECs in order to provide wholesale access arrangements to carriers, provided that such equipment is used by Bell Atlantic/GTE solely to provide such wholesale arrangements and is based on industry standards where they exist, and that Bell Atlantic/GTE provides such wholesale arrangements to competing carriers on non-discriminatory rates, terms, and conditions as they are provided to the Advanced Services Affiliate.

(2) In order to allow an efficient transition to the non-discriminatory use of Advanced Services Equipment or an efficient transfer of Advanced Services Equipment to the separate Advanced Services affiliate, any Advanced Service Equipment that was utilized by the incumbent LEC to provide an Advanced Service to its embedded base of customers in a state as of the Merger Closing Date may continue to be utilized by the incumbent LEC and access may be provided (under a written agreement) to the separate Advanced Services affiliate on an exclusive basis within the state during a transitional period. The transitional period shall be until such time as Bell Atlantic/GTE is required to provide all Advanced Services utilizing the Advanced Services Equipment through a Separate Advanced Services affiliate in that state, in accordance with the provisions of Paragraph 6. Additionally, the incumbent LECs may provide the ADSL service derived from the integrated combination of an unbundled loop, a DSLAM, and spectrum splitters at each end of the unbundled loop where the unbundled loop is also used to provide voice grade service ("Interim Line Sharing"), including OI&M functions associated with

⁷ Advanced Services Equipment does not include DACS frames used for voice services.

⁸ Splitters and other equipment on customer premises will continue to be classified as CPE where such equipment is CPE under the Commission's rules.

Interim Line Sharing, to the separate Advanced Services affiliate(s) on an exclusive basis within any geographic area until line sharing is provided to unaffiliated providers of Advanced Services within the same geographic area, as described in Paragraph 7, provided that the incumbent LEC provides unaffiliated providers of Advanced Services within the same geographic area the Discounted Surrogate Line Sharing Charges, as described in Paragraph 13.

e. The incumbent LEC may (but shall not be required to) transfer, license, or sell to the separate Advanced Services affiliate(s), on an exclusive basis, any Advanced Services Equipment, including supporting facilities, systems, and personnel, during a "Grace Period." The Grace Period shall be from January 3, 2000 until the date that is 180 days after the Merger Closing Date. In states where regulatory approval is required to transfer Advanced Services Equipment, if Bell Atlantic/GTE seeks such required regulatory approval during the Grace Period, and completes the transfer of Advanced Services Equipment for which regulatory approval is required within 180 days after receiving such approval, then such Advanced Services Equipment shall be deemed to have been transferred during the Grace Period. Such Advanced Services Equipment that may be transferred to the separate affiliate on an exclusive basis is limited to that equipment described in Subparagraph d above. If Bell Atlantic/GTE transfers to its separate affiliate a facility that is deemed to be a UNE under 47 U.S.C. § 251(c)(3), the Commission's unbundling requirements will attach with respect to that UNE as described in section 53.207 of the Commission's rules, 47 C.F.R. § 53.207.

f. The separate Advanced Services affiliates may use the incumbent LEC's name, trademarks, or service marks on an exclusive basis.

g. Employees of the separate Advanced Services affiliate(s) may, on an exclusive basis, be located within the same buildings and on the same floors as employees of the incumbent LECs.⁹

h. For a transition period of up to 12 months after the Merger Closing Date, a Bell Atlantic/GTE incumbent LEC may receive and process Advanced Services-related trouble reports and perform related trouble isolation, as described in Subparagraph 4j, on behalf of a separate Advanced Services affiliate on an exclusive basis.¹⁰

i. Public disclosure of the governing interconnection agreement (including the prices, discounts, terms, and conditions associated with that agreement) shall replace the transaction disclosure requirements (including Internet posting) that otherwise would apply to the incumbent LEC and separate Advanced Services affiliate under Section 272(b)(5) and the Commission's implementing rules for facilities and services provided pursuant to such

⁹ Where transactions between the incumbent LEC and the separate affiliate are required to be on a non-discriminatory basis, such transactions between the separate affiliate and the incumbent LEC shall be conducted in the same manner in which unaffiliated entities conduct transactions with the incumbent LEC.

¹⁰ The corporate compliance officer described in Paragraph 49 of these Conditions will notify appropriate Commission staff when the transaction period ends (*i.e.*, when Bell Atlantic/GTE has stopped receiving and processing Advanced Services-related trouble reports and performing related trouble isolation on behalf of the separate Advanced Services affiliate on an exclusive basis).

agreement.

j. Notwithstanding Section I of these Conditions, Bell Atlantic/GTE retains the option on a state-by-state basis of providing Advanced Services through a separate affiliate that complies with all of the requirements of 47 U.S.C. § 272.

4. Steady-State Provisioning of Advanced Services. After a transition period (as defined in Subparagraph 4n below), all Advanced Services offered by Bell Atlantic/GTE in the Bell Atlantic/GTE Service Area will be provisioned in accordance with the terms of this Paragraph, which provisions are consistent with the provisions of Paragraph 3. After such transition period, the overall responsibility for providing Advanced Services in the Bell Atlantic/GTE Service Area shall rest with a separate Advanced Services affiliate ~~or an affiliate that complies with 47 U.S.C. § 272~~. In fulfilling those responsibilities a separate Advanced Services affiliate may utilize the facilities and services of an incumbent LEC consistent with the provisions of Paragraph 3. Specifically, with respect to Bell Atlantic/GTE's steady-state provisioning of Advanced Services in the Bell Atlantic/GTE Service Area, this Paragraph describes (1) the activities that a Bell Atlantic/GTE incumbent LEC may undertake, and associated conditions that apply if an incumbent LEC chooses to perform such activities, and (2) the activities that are the responsibility of a separate Advanced Services subsidiary and which may not be performed by an incumbent LEC.

a. Creating an Inventory of Advanced Services Equipment and Advanced Service Capability. Consistent with the Commission's rules implementing the provisions of 47 U.S.C. § 272(b)(1), the separate Advanced Services affiliate shall be responsible for network planning and engineering functions related to Advanced Services, and these functions may not be provided by an incumbent LEC.¹¹ The network planning and engineering functions related to Advanced Services that are the responsibility of the separate Advanced Services affiliate and which may not be performed by an incumbent LEC include:

(1) Determining where, when, and how much Advanced Services Equipment needs to be deployed to meet forecasted customer demands, and ensuring that such equipment is compatible with the interconnection services (e.g., unbundled local loops) and/or tariffed services (e.g., DS1 special access service) the separate Advanced Services affiliate will purchase from the incumbent LEC.

(2) Arranging for the purchase of Advanced Services Equipment.

(3) Arranging and negotiating for collocation space with the incumbent LEC under the same terms and conditions and utilizing the processes that are made available to unaffiliated telecommunications carriers, and arranging for any new Advanced Services Equipment to be delivered.

¹¹ This means that these functions may not be provided by the incumbent LEC as part of the OI&M contemplated in Subparagraph 3c.

(4) Inventorying, in systems and databases owned by the separate Advanced Services affiliate, its Advanced Services Equipment deployed and identifying whether such equipment is used or available to provide Advanced Services to customers.

The incumbent LEC may, pursuant to the OI&M provisions of Subparagraph 3c, perform the following tasks that are associated with creating an inventory of Advanced Services Equipment and Advanced Service capability. Processes, systems, and procedures used by the separate Advanced Services affiliate to obtain OI&M services under this Subparagraph shall be available to unaffiliated providers of Advanced Services on a non-discriminatory basis.

(5) The incumbent LEC may install the affiliate's Advanced Services Equipment. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers of Advanced Services.¹²

(6) An incumbent LEC technician may connect together various items of Advanced Services Equipment owned by the affiliate located in virtual collocation space or other space controlled by the incumbent LEC, or may connect various items of Advanced Services Equipment owned by the affiliate located in such space with telecommunications services and/or unbundled network elements ordered by the affiliate (e.g., the incumbent LEC technician could connect a DSLAM to an ATM switch via a DS3 special access service ordered by the affiliate), in accordance with a work order from the affiliate. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers.¹³

(7) An incumbent LEC technician may connect together various items of Advanced Services Equipment owned by the affiliate located in physical collocation space, or may connect various items of Advanced Services Equipment owned by the affiliate located in physical collocation space with telecommunications services and/or unbundled network elements ordered by the affiliate, in accordance with a work order from the affiliate. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers.

b. Customer Sales Process for New Installations. Consistent with the joint marketing provisions of Subparagraph 3a, the incumbent LEC may, on an exclusive basis, complete the sale of, up to and including the taking of an order for, Advanced Services on behalf of the separate Advanced Services affiliate by performing any of the following activities:

¹² The brand and model number of the particular Advanced Services Equipment will generally not be a material term or condition, so that the incumbent LEC will provide non-discriminatory service regardless of the specific equipment brand and model selected by unaffiliated carriers. Unaffiliated entities shall pay reasonable costs to train the incumbent LEC's employees to service the equipment.

¹³ Incumbent LEC work order processes, including interfaces, must also be non-discriminatory.

(1) On inbound customer calls, the incumbent LEC service representative may discuss Advanced Services with the customer and obtain the customer's agreement to purchase an Advanced Service provided by the separate Advanced Services affiliate.

(2) An incumbent LEC service representative may make outbound calls to discuss Advanced Services with a customer and may obtain the customer's agreement to purchase an Advanced Service provided by the separate Advanced Services affiliate.

(3) During a sales discussion with a customer, an incumbent LEC service representative may review loop information to determine if it is possible to provide an Advanced Service to the customer provided, however, that the incumbent LEC service representative may only have access to the same loop information of the incumbent LEC as is available to unaffiliated telecommunications carriers and may only access such loop information through the same electronic OSS interfaces, Internet access, and/or manual methods, as are made available to unaffiliated telecommunications carriers.

(4) During a sales discussion with a customer, an incumbent LEC service representative may review Advanced Services availability information provided to the incumbent LEC by the separate Advanced Services affiliate to determine whether the affiliate offers a certain Advanced Service in the area where the customer resides.

(5) Upon securing a customer's agreement to purchase an Advanced Service provided by the separate Advanced Services affiliate, the incumbent LEC service representative may obtain from the customer all customer information necessary to complete the order (e.g., name, address, due date, premises access information, services, ISP information, CPE information). The incumbent LEC service representative must pass such information to the separate Advanced Services affiliate for placement of any necessary service order(s) by the affiliate. The separate Advanced Services affiliate shall use the same interfaces and associated processes and procedures made available by the incumbent LEC for placing Advanced Services orders with the Bell Atlantic/GTE incumbent LEC as are made available by the incumbent LEC to unaffiliated providers of Advanced Services.

(6) Consistent with regulatory requirements, the separate Advanced Services affiliate and unaffiliated providers of Advanced Services shall have access to the same customer-specific information for pre-ordering and ordering, other than credit history, that is available to the incumbent LEC, through the same interfaces that are made available on a non-discriminatory basis by the incumbent LEC.

c. Design of the Customer's Advanced Service. Consistent with the Commission's rules implementing the provisions of 47 U.S.C. § 272(b)(1), a separate Advanced Services affiliate shall be responsible for design functions related to a customer's Advanced Services sales order, and these functions may not be performed by an incumbent LEC.¹⁴ The

¹⁴ This means that the functions may not be provided by the incumbent LEC as part of the OI&M

separate Advanced Services affiliate is responsible for the overall design of the Advanced Service, but the incumbent LEC is responsible (and the affiliate is not responsible) for the design of unbundled network elements or telecommunications services used in the Advanced Service where these elements or services are provided by the incumbent LEC. The design functions related to a customer's Advanced Services order that are the responsibility of the separate Advanced Services affiliate include:

(1) The identification of Advanced Services network components, unbundled network elements, telecommunications services and work activities necessary to provision the Advanced Service to the customer's premises;

(2) The determination of the routing of the Advanced Service and the location(s) of the identified Advanced Services network components, unbundled network elements, and telecommunications services;

(3) The creation of a work order to have all such Advanced Services network components, unbundled network elements and telecommunications services made available and all such activities completed. Examples of Advanced Services network components, unbundled network elements and telecommunications services that would be identified in the design stage are (i) unbundled local loops and DS1 special access circuits provided by the incumbent LEC, and (ii) DSLAMs and ATM switch ports provided by the separate Advanced Services affiliate. Examples of work activities that would be identified in the design stage are (i) the conditioning of an unbundled local loop, (ii) the cross-connections required to connect all of the components, and (iii) the installation of Advanced Services Customer Premises Equipment ("CPE") at the customer premises.

d. Assignment of the Advanced Services Equipment Required to Provide the Customer's Advanced Service. Consistent with the Commission's rules implementing the provisions of 47 U.S.C. § 272(b)(1), the separate Advanced Services affiliate shall be responsible for the assignment functions related to the Advanced Services Equipment used to provision a customer's Advanced Services order, and these functions may not be performed by an incumbent LEC. Examples of the assignment functions related to a customer's Advanced Services order that are the responsibility of the separate Advanced Services affiliate include (i) assignment of the DSLAM equipment, and (ii) assignment of the ATM switch port.

e. Creating and Maintaining the Customer's Record, Including the Customer's Advanced Service Circuit Layout Record. The separate Advanced Services affiliate shall be responsible for creating and maintaining all records associated with the customer's Advanced Services account, and these records may not be created or maintained by an incumbent LEC. These records may be provided to an incumbent LEC for its use in providing joint marketing, customer care, and billing and collection services to the separate Advanced Services affiliate.¹⁵ The records that the separate Advanced Services affiliate shall be responsible for

contemplated in Subparagraph 3c.

¹⁵ Only the information required to perform the permitted function may be extracted from the record, and

creating and maintaining include:

(1) The record that describes the Advanced Services network components, unbundled network elements, and telecommunications services (including location, identification numbers, etc.) utilized by the separate Advanced Services affiliate to provision the customer's Advanced Service. Where the separate Advanced Services affiliate utilizes the telecommunications services or unbundled network elements of the incumbent LEC, the incumbent LEC will be responsible for all records associated with how such services or unbundled network elements are provisioned.¹⁶ For example, if the affiliate orders (from the incumbent LEC) a DS1 special access service from location A to location Z, (i) the affiliate's circuit layout record will reflect the DS1 service from location A to location Z, and (ii) the incumbent LEC's record will reflect the layout of the circuit utilized to provision the DS1 service (e.g., that the circuit routes from location A through locations B and C before it terminates at location Z).

(2) The record that contains the information necessary to facilitate billing the customer for the Advanced Service being provided to the customer.

f. Ordering, from the Incumbent LEC, the Interconnection Facilities and Telecommunications Services Required to Provide the Customer's Advanced Service. The separate Advanced Services affiliate shall be responsible for ordering all interconnection facilities (e.g., unbundled local loops) and all telecommunications services (e.g., DS1 special access service) from the incumbent LEC, and the ordering of such facilities and services may not be performed by an incumbent LEC.¹⁷ The incumbent LEC must permit unaffiliated telecommunications carriers to order such facilities and services under the same rates, terms, and conditions, and to utilize the same interfaces, processes, and procedures as are made available to the separate Advanced Services affiliate. In particular, the separate Advanced Services affiliate may utilize only those OSS interfaces for ordering unbundled network elements and other interconnection services as are made available to unaffiliated telecommunications carriers.

g. Connecting and Testing the Network Components and Telecommunications Services Required to Provision the Customer's Advanced Service. An incumbent LEC technician may, pursuant to the OI&M provisions of Subparagraph 3c, perform the following tasks:

(1) An incumbent LEC technician may, in accordance with a work order received from the separate Advanced Services affiliate, connect the various network components and telecommunications services utilized to provision the customer's Advanced

such information may be used only for a permitted purpose. Systems used for providing information to the incumbent LEC are to be designed consistent with these limitations.

¹⁶ The ILEC will provide access to all records associated with services or unbundled elements provided to the separate affiliate and unaffiliated providers of Advanced Services in a non-discriminatory fashion, and will keep all such records in a manner equally useful to the separate affiliate and unaffiliated providers of Advanced Services.

¹⁷ This means that the functions may not be provided by the ILEC as part of the OI&M contemplated in Subparagraph 3c.

Service. These connections could include (but would not be limited to) the connection from an unbundled loop to a DSLAM port identified by the affiliate, and the connection from a DS1 special access service to an ATM switch port identified by the affiliate. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers, and it must provide unaffiliated telecommunications carriers access to the same process for sending work orders to the incumbent LEC as the incumbent LEC provides to the affiliate.

(2) An incumbent LEC technician may, in accordance with a work order received from the separate Advanced Services affiliate, test the customer's Advanced Service circuit after all of the various network components and telecommunications services utilized to provision the service have been connected together. In performing this test, the technician may use whatever test systems or equipment are typically made available to the technician. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers, and it must provide unaffiliated telecommunications carriers access to the same process for sending work orders to the incumbent LEC as the incumbent LEC provides to the affiliate.

h. Installing and Testing any CPE Associated with the Customer's Advanced Service. An incumbent LEC technician may, pursuant to subparagraph 3c, install and test CPE at the customer premises on behalf of the separate Advanced Services affiliate. If the incumbent LEC provides these services to the separate Advanced Services affiliate, it must provide the same services under the same rates, terms, and conditions to unaffiliated telecommunications carriers.

i. Advising the Customer of the Status of the Order. Consistent with the customer care provisions of Subparagraph 3a, an incumbent LEC service representative may, on an exclusive basis on behalf of the separate Advanced Services affiliate, provide ongoing customer notification of service order progress and respond to customer inquiries regarding the status of the customer's order. The incumbent LEC service representative must obtain all information regarding the status of the customer's Advanced Service order from the separate Advanced Services affiliate.

j. Receipt and Isolation of Troubles Affecting the Customer's Advanced Service. In the event that an end user customer contacts the Bell Atlantic/GTE incumbent LEC to report a trouble that may affect an Advanced Service provided by the separate Advanced Services affiliate, the incumbent LEC may perform the following trouble-related functions for the affiliate, provided that the same functions and related processes and procedures provided to the affiliate are made available to unaffiliated providers of Advanced Services in the same state on non-discriminatory rates, terms, and conditions:

(1) Where the customer contacting the incumbent LEC is a customer of the incumbent LEC, the incumbent LEC may perform a line test of facilities the incumbent LEC uses to provide its services to the customer, to indicate whether the trouble is associated with or affects services provided to the customer by the incumbent LEC. If the incumbent LEC's

line test indicates that the trouble is associated with or affects services provided to the customer by the incumbent LEC, the incumbent LEC may resolve the trouble.

(2) Where the customer contacting the incumbent LEC is a customer of the incumbent LEC, and the incumbent LEC's line test of facilities the incumbent LEC uses to provide its services to the customer indicates that the trouble is not associated with and/or does not affect services provided to the customer by the incumbent LEC, the incumbent LEC may transfer the trouble report (including the results of any line test performed by the incumbent LEC) or refer or transfer the end user customer to the separate Advanced Services affiliate. If the incumbent LEC provides the separate Advanced Services affiliate such referral or transfer services, the incumbent LEC shall offer the same referral or transfer services to unaffiliated providers of Advanced Services, on non-discriminatory rates, terms, and conditions. In the event that the incumbent LEC uses an electronic system to transfer trouble reports to its affiliate in a state, (i) the affiliate shall pay its appropriate share of the costs of that system in accordance with the Commission's accounting safeguards pursuant to 47 U.S.C. § 272 in accordance with Paragraph 3 above and (ii) the incumbent LEC shall offer to develop in that state, within 12 months of a written contract for development of such access, nondiscriminatory access to the same electronic system for unaffiliated Advanced Services providers. In the event that the incumbent LEC uses an electronic system to transfer trouble reports to its affiliate, the incumbent LEC shall also provide unaffiliated Advanced Services providers the option of receiving trouble reports through a public Internet connection. If more than one Advanced Services provider requests access to the same electronic system used by the incumbent LEC to transfer trouble reports to its affiliate, each provider entering into a written contract to obtain such access will pay its proportionate share of the costs associated with developing the access based upon the number of providers requesting access. If the requested access has already been developed for another provider, Bell Atlantic/GTE shall provide the access without a development charge. Bell Atlantic/GTE shall develop and pay for a training package, and the requesting Advanced Services provider shall pay for the costs of delivery of the training.

(3) Where the customer contacting the incumbent LEC is not a customer of the incumbent LEC, but contacts the Bell Atlantic/GTE incumbent LEC to report a trouble affecting an Advanced Service, the incumbent LEC shall not perform testing on the line, but will refer the customer to the customer's Advanced Services provider, if known, for resolution of the trouble.

k. Repair of Troubles. A separate Advanced Services affiliate is responsible for maintaining and repairing any Advanced Services Equipment it owns or leases. To fulfill this responsibility, a separate Advanced Services affiliate may contract with an incumbent LEC, pursuant to the OI&M provisions of Subparagraph 3c, to maintain and repair Advanced Services Equipment owned or leased by the affiliate. If the incumbent LEC provides these maintenance and repair services for Advanced Services Equipment to the separate Advanced Services affiliate, it must offer to provide the same services under the same rates, terms, and conditions to unaffiliated providers of Advanced Services. All maintenance and repair that is provided by the incumbent LEC, including maintenance and repair in connection with its provision of interconnection, unbundled network elements, or resold services, shall be made available to the

separate Advanced Services affiliate using the same interfaces, processes, and procedures as are made available to unaffiliated providers of Advanced Services.

l. Service the Customer's Account. Consistent with the joint marketing and customer care provisions of Subparagraph 3a, an incumbent LEC service representative may, on an exclusive basis on behalf of the separate Advanced Services affiliate, perform certain tasks to service the account of a separate Advanced Services affiliate customer. Specifically, these tasks are:

- (1) on-going customer notification of service order progress,
- (2) response to customer inquiries regarding the status of an order,
- (3) changes to customer information, and
- (4) receipt of customer complaints (other than receipt and isolation of trouble reports, such as reports of service outages or service impairment, which shall be processed in accordance with Subparagraph 4(j)).

m. Billing and Collecting for the Advanced Service. A Bell Atlantic/GTE incumbent LEC may provide billing and collection services consistent with the provisions of Subparagraph 3b.

n. Transitional Mechanisms. In recognition of the fact that the Bell Atlantic/GTE incumbent LECs provided most Advanced Services prior to the Merger Closing Date and to minimize any disruption to the efficient and timely delivery of Advanced Services to customers, several transitional mechanisms have been adopted to permit an orderly transition to the steady-state provisioning of Advanced Services described in Subparagraphs (a) through (m) above:

(1) Interim Line Sharing. Pursuant to the provisions of Subparagraph 3d, an incumbent LEC may provide, on an exclusive basis, Interim Line Sharing (as defined in Subparagraph 3d) including OI&M functions associated with Interim Line Sharing to a separate Advanced Services affiliate. The duration of this transition mechanism, with respect to new activations, is dependent on when the Commission requires Bell Atlantic/GTE to provide line sharing to unaffiliated telecommunications carriers.

(2) State Approvals for Providing New Activations of Advanced Services. Pursuant to the provisions of Subparagraphs ~~6a5a~~, 6a, and 6c, an incumbent LEC may continue to provide new activations of Advanced Services in a state until 30 days after the separate Advanced Services affiliate has received all required state certifications and approvals to provide Advanced Services or is operating, pending such approvals, in accordance with these Conditions. The affiliate is required to file for all such approvals prior to the Merger Closing Date.

(3) State Approvals for Providing Advanced Services to Embedded Advanced Services Customers. Pursuant to the provisions of Subparagraphs 5a, 6b and 6d, an incumbent LEC may continue to provide Advanced Services to embedded customers in a state until the later of ~~180~~270 days after the Merger Closing Date or 30 days after Bell Atlantic/GTE have obtained all necessary approvals in that state to transfer or assign the embedded customers to the separate Advanced Services affiliate.¹⁸ The affiliate is required to file for all such approvals (other than approvals for asset transfers as described in Subparagraphs 3(d) and 3(e)) prior to the Merger Closing Date, and the incumbent LEC is required to file for any required tariff approvals ~~no later than 5 business days after the Merger Closing Date, pursuant to Subparagraph 6(e).~~

(4) Network Planning, Engineering, Design, and Assignment. Pursuant to the provisions of Subparagraph 3c, the incumbent LEC may, on an exclusive basis, provide network planning, engineering, design and assignment services for Advanced Services Equipment (including the creation and maintenance of customer records) to the separate Advanced Services affiliate for a period of no more than 180 days after the Merger Closing Date.

(5) Advanced Services Equipment. Pursuant to the provisions of Subparagraph 3d, the incumbent LEC may continue to own Advanced Services Equipment that was installed no later than the date that is 30 days after the Merger Closing Date. After Bell Atlantic/GTE is required to provide all Advanced Services through a separate Advanced Services affiliate in accordance with the provisions of Paragraph 6, if the incumbent LEC permits the separate Advanced Services affiliate to use such equipment (except for such equipment that is used to provide Interim Line Sharing) the incumbent LEC must permit unaffiliated telecommunications carriers to use the equipment under the same rates, terms, and conditions.

(6) Loop Information. Pursuant to the provisions of Subparagraph 3a, the incumbent LEC, when engaged in the joint marketing permitted by Subparagraph 3a, may access loop information through an OSS interface that is not available to unaffiliated telecommunications carriers for a period of no more than 180 days after the Merger Closing Date. During this transition, unaffiliated telecommunications carriers will be able to access the same loop information as is available to the incumbent LEC but may do so through a different interface.

5. Requests for State Approval and Schedule for Establishing Advanced Services Affiliates. Bell Atlantic/GTE will establish the separate Advanced Services affiliate(s) required by Section I in accordance with the following provisions and schedule:

a. In any state where Bell Atlantic/GTE will be providing Advanced Services on the Merger Closing Date, the separate Advanced Services affiliate(s) shall, prior to the Merger Closing Date: negotiate¹⁹ and file for approval pursuant to 47 U.S.C. §§ 251 and 252 interconnection agreement(s) with the affiliated incumbent LEC setting forth terms, conditions

¹⁸ New activations for embedded customers are governed by Subparagraph (2).

¹⁹ These negotiations are to be on an "arm's length" basis.

and prices for the provision of interconnection, telecommunications services, and network elements that the affiliated incumbent LEC shall provide to the separate Advanced Services affiliate for the purposes of the separate affiliate's provision of Advanced Services. Such agreement(s) shall be sufficiently detailed to permit telecommunications carriers to exercise effectively their "pick-and-choose" rights under 47 U.S.C. § 252(i) and the Commission's rules implementing that section. A telecommunications carrier may pick and choose the specific types of OI&M services that the incumbent LEC has agreed to provide to the separate Advanced Services affiliate in that state. If a Bell Atlantic/GTE incumbent LEC provides OI&M services to a separate Advanced Services affiliate within a state, the incumbent LEC shall offer those OI&M services (excluding those OI&M services associated with Interim Line Sharing) to unaffiliated telecommunications carriers within the same state on a non-discriminatory basis. If the interconnection agreement negotiated between the Bell Atlantic/GTE incumbent LEC and its separate affiliate has not become effective within 90 days of the filing date pursuant to 47 U.S.C. § 252(e)(4), the separate affiliate and the incumbent LEC, subject to applicable state law, will operate for jurisdictionally interstate services as if the interconnection agreement were in effect for those services.

b. In any state where Bell Atlantic/GTE will be providing Advanced Services on the Merger Closing Date, the separate Advanced Services affiliate(s) shall, prior to the Merger Closing Date, consistent with state law, file for any required state certifications (for intrastate services) or approvals necessary for the separate affiliate to provide Advanced Services.

c. In any state where a Bell Atlantic/GTE incumbent LEC will provide Advanced Services on the Merger Closing Date, Bell Atlantic/GTE shall establish prior to the Merger Closing Date a separate Advanced Services affiliate.

d. Bell Atlantic/GTE shall incorporate and establish a separate Advanced Services affiliate to provide Advanced Services prior to the Merger Closing Date.

e. Notwithstanding Subparagraphs b-d of this Paragraph or Paragraph 6 below, Bell Atlantic/GTE may provide Advanced Services through a Bell Atlantic/GTE incumbent LEC (or other entity that does not comply with the provisions of Paragraph 3) in any state until Bell Atlantic/GTE has obtained all necessary state authorizations and approvals to provide Advanced Services through the separate Advanced Services affiliate in that state. Bell Atlantic/GTE shall make good-faith efforts to secure the necessary state authorizations and approvals.

6. Providing Advanced Services through the Separate Advanced Services Affiliate. Bell Atlantic/GTE shall phase-in the provision of Advanced Services through its separate Advanced Services affiliate(s), as follows:

a. New Activations for Advanced Services Customers that are Providers of Internet Services. In each Bell Atlantic/GTE State, Bell Atlantic/GTE shall provide new activations of Advanced Services to customers that are providers of Internet services through a separate Advanced Services affiliate no later than 30 days after state approval of all agreements with the affiliated incumbent LEC that are necessary to carry out the provisions of this Section I,

including any interconnection agreement(s). Any tariffs necessary for the separate Advanced Services Affiliate to provide such Advanced Services shall be filed prior to the date on which Bell Atlantic/GTE is required to provide new activations through an Advanced Services affiliate, as defined in this Paragraph. The terms of this Subparagraph a are established in recognition of, and are expressly contingent upon, the fact that the FCC has determined that Advanced Services used to provide Internet services are jurisdictionally interstate services. In the event such services are determined to be jurisdictionally intrastate, and state certification is required to provide new activations of Advanced Services to customers that are providers of Internet services through a separate Advanced Services affiliate, the obligations of this Subparagraph a shall apply 30 days after state approval of any necessary tariffs that the state deems required for the separate Advanced Services affiliate to provide new activations of Advanced Services to customers that are providers of Internet services.

b. Incumbent LEC's Embedded Base of Advanced Services Customers That Are Providers of Internet Services. In each Bell Atlantic/GTE State, any Advanced Services provided by Bell Atlantic/GTE's incumbent LEC in that state to customers that are providers of Internet services shall be transferred or assigned, along with the associated customer relationship, to the separate Advanced Services affiliate no later than the later of: (i) the date on which any asset transfers are completed pursuant to Paragraph 3e or (ii) 180 days after the Merger Closing Date. Any tariffs necessary for the separate Advanced Services Affiliate to provide such Advanced Services shall be filed prior to the date on which Bell Atlantic/GTE is required to provide Advanced Services to the incumbent LEC's embedded base of customers that are providers of Internet services. The terms of this Subparagraph b are established in recognition of, and are expressly contingent upon, the fact that the Commission has determined that Advanced Services used to provide Internet services are jurisdictionally interstate access services. In the event such services are determined to be jurisdictionally intrastate, and state certification is required to transfer Advanced Services provided by Bell Atlantic/GTE's incumbent LEC to customers that are providers of Internet services to the separate Advanced Services affiliate, the obligations of this Subparagraph b shall apply 30 days after state approval of any necessary tariffs, certifications, or agreements that the state deems required for the separate Advanced Services affiliate to provide Advanced Services to customers that are providers of Internet services if later than the date set forth in ~~Subparagraphs 1 and 2~~(i) and (ii) above.

c. New Activations for Other Advanced Services Customers. In each Bell Atlantic/GTE State, Bell Atlantic/GTE shall provide new activations of Advanced Services to customers that are not providers of Internet services through a separate Advanced Services affiliate no later than 30 days after the later of: (i) state approval of all agreements with the affiliated incumbent LEC necessary to carry out the provisions of this Section I, including any interconnection agreement(s), (ii) state approval of any certification that the state deems required for the separate Advanced Services affiliate to provide Advanced Services in that state, or (iii) approval of any tariffs necessary for the separate Advanced Services affiliate to provide such Advanced Services. Such tariffs shall be filed no later than 3 business days after state approval of any certification that the state deems required for the separate Advanced Services affiliate to provide Advanced Services in that state.

d. Incumbent LEC's Embedded Base of Other Advanced Services Customers. In each Bell Atlantic/GTE State, any Advanced Services provided by Bell Atlantic/GTE's incumbent LEC in that state to customers that are not providers of Internet services shall be transferred or assigned, along with the associated customer relationship, to the separate Advanced Services affiliate no later than the later of: (i) 30 days after state approval of any necessary certification, tariffs, or any other required state authorization, (ii) 30 days after state approval of all necessary agreements, including any agreement to transfer or assign customers from the incumbent LEC to the separate Advanced Services affiliate, (iii) 180 days after the Merger Closing Date, or (iv) completion of any asset transfers pursuant to Paragraph 3e. Any necessary tariffs shall be filed no later than 3 business days after state approval of any certification that the state deems required for the separate Advanced Services affiliate to provide Advanced Services in that state.

e. Existing Tariffs. To comply with the requirements of ~~Subparagraphs a and c above,~~ this Paragraph, Bell Atlantic/GTE shall, no later than ~~3 business days after obtaining all necessary certifications, authorizations, and/or approvals to provide new activations of an Advanced Service through~~ the date on which the separate Advanced Services affiliate may begin offering Advanced Services to existing customers of the incumbent LEC in a state, (i) file any necessary tariff changes with the Commission and/or the state commission to terminate the offering of ~~new activations of~~ such Advanced Service by the incumbent LEC, and (ii) cease initiating any marketing or sales of ~~new activations of~~ such Advanced Service ~~from the tariffs of~~ by the incumbent LEC. Notwithstanding the requirements of Subparagraphs a and c above, until such tariff changes are approved by the Commission and/or the state commission (including any mandatory customer notification period), the Bell Atlantic/GTE incumbent LEC shall comply with such tariffs as then in effect if the incumbent LEC receives a request for a new activation of an Advanced Service.

f. Transition Period. In the Bell Atlantic/GTE Service Areas in each Bell Atlantic/GTE State, from such time as Bell Atlantic/GTE is required to provide new activations of Advanced Services through the separate Advanced Services affiliate in that state until the time when Bell Atlantic/GTE is required to provide all Advanced Services through a separate Advanced Services affiliate in that state, Bell Atlantic/GTE shall be permitted to provision such services in that state in the following manner, which is intended to be the "functional equivalent" of provisioning service through a separate Advanced Services affiliate.

(1) Either the Bell Atlantic/GTE incumbent LEC or the separate Advanced Services affiliate may joint market Advanced Services to customers;

(2) Except for orders that contain ADSL service that uses Interim Line Sharing, as provided for in Paragraph 7, customer orders for Advanced Services obtained by the incumbent LEC must be passed to the separate Advanced Services affiliate for processing. For customer orders that contain ADSL service that uses Interim Line Sharing, as provided for in Paragraph 7, the incumbent LEC may, on an exclusive basis pursuant to a written agreement with the separate Advanced Services affiliate, process the order;
